

RANGOLI DESIGN BY VIJAYA MOHAN

DEEPAVALI

WELCOME THE
FESTIVAL OF LIGHTS AT ACM!

Rangoli Craft Template

Materials you will need

- Thick A4 cardstock of at least 120gsm or regular A4 printer paper and cardboard
- Coloured sand, flour, or rice grains of different colours
- Spoon
- Pencil
- White PVA glue or any kind of wet glue
- Newspaper

Instructions

- 1 Download and print out the template. Cut along the perforated line. If you printed on cardstock, please move to the next step. If you printed on A4 printer paper, paste it on a piece of cardboard to make it sturdy.
- 2 Before starting, place a large piece of newspaper on the table or the floor, under your printed design to collect all the loose materials.
- 3 Plan where each colour will go, and write the names of the colours faintly in pencil on the template.
- 4 Pick one colour to start - apply glue to all the sections you want to be in that colour.
- 5 Pour the coloured sand with a spoon over these sections. Once done, lift the paper and tap the excess sand (or whatever you are using) off the paper and onto the newspaper.
- 6 Select the next colour and repeat until your whole design is coloured.
- 7 Don't forget to share your creations @ACM_SG.
