

DIY Snakes & Ladders

1. Colour in the game board below in your favourite colours.
2. Select your game piece – this will represent you on the board.
3. Grab a die.

How to play

1. To choose who starts, each player rolls the die. Highest number starts. If more than 2 players, turns go clockwise after the first player moves.
2. Each player rolls the die on his or her turn. Move your game piece the same number of squares as the number you rolled.
3. Climb up Ladders: The ladders on the board allow you to move ahead faster. If your piece lands on a square with a ladder, it can climb up right away!
4. Slide down Snakes: Snakes set you back. If your piece lands on a square with the head of a snake (look for the eye and forked tongue), it must immediately slide down to the tail.

To Win

Be the first to land on the centre GAME ON! square. You can only win by rolling the exact number needed to land on that final square. If your roll is too high, your piece stays where it is. Good luck and Game on!
