

OBJECT HUNT

AROUND THE HOUSE

HOW TO PLAY

1. Take a walk around the museum and find the items listed below. When you see something that matches a description on the card, use your pencil to cross it out.
2. Find four items in a row to complete a line – across, down, or diagonally. When you get four in a row, mark a big smiley face at the bottom of your card. How many rows can you complete?
3. Have fun discovering interesting household objects in our collection!

Can you find...
