Rickshaw Puller

By: Seniors from NTUC Health Day Centre
for Seniors (Bukit Merah Silat)

Hints of the 1950s are expressed through an orchid on the hat — our national flower that also featured on the Orchid series bank notes of Singapore. With a little bow tie that acts as a towel, sport shoes, and pockets for loose change, the rickshaw puller is now able to travel long distances in comfort.

"The national flower on the hat of the rickshaw puller is to attract customers."

- Mr Kwa Jun, 63 years old

Carpenter

By: Seniors from NTUC Health Day
Centre for Seniors (Geylang East)

The modern carpenter wears a
dri-FIT jersey shirt to work comfortably
in humid Singapore. No carpenter's
uniform is complete without pockets
and straps to keep tools within reach!

*"The carpenter wears a pair of spectacles to
see clearly when he is working on smaller
parts during carpentry!"*

- Mr Chia Tea Chiang, 81 years old

Carpenter

By: Seniors from NTUC Health Day Centre
for Seniors (Geylang East)

Who is going to say “no” to extra safety?
No one! With a construction helmet and
boots, carpenters no longer have to worry
about stepping on nails or metal pieces
while working!

Leather Artist

By: Children from Class K2C

The leather artist makes vegan leather products using the fungi cultivation technique. Animals would not have to be slaughtered for their skin, and the leather is now biodegradable AND can be used as fertiliser after its lifespan is up. How cool is that?!
