

## Colouring Fun! Five-stones and Pick-up Sticks

### Let's chat about our childhood toys!

- 1) Five-stones are small cloth bags usually filled with sand or dried beans. What else do you think can be used to fill the five-stones?
- 2) You can sew your own five-stones at home, using scrap pieces of cloth. Look around your home – what pattern would you choose for your cloth?
- 3) In pick-up sticks, sticks of different colours represent varying points. If you could create your own point system, what colour would represent the most points?
